Blue Ribbon Winners in the "World's Largest" Tire Show

The 17th annual American Retreader's Conference was held on April 20-22 in Louisville, Kentucky. An estimated 6,000 retreaders and suppliers met at the "World's Largest" display of tire retreading and repair equipment. Many innovations were unveiled at this show, including the latest in equipment and methods for improving retreading techniques.

A highlight of this year's conference was a Retread Appearance Contest, the first of its kind, in which various types of retreads were judged by the A.R.A. Advisory Council, with 1st, 2nd, and 3rd awards going to the best looking retreads.

This contest afforded retreaders an excellent opportunity to view what a prize winning retread should look like. All types of passenger and truck tire retreads were entered in the contest.

Martin L. Webb, President of Webb's Tire Company, Inc., entered two retreads in the "78" and "60" tire series

Both retreads won first awards and Mr. Webb was presented 2 Blue Ribbons at the General Session of the Conference on Monday, April 22nd.

Funds Needed For Cobalt Machine

As we all know, cancer has become an often used word these days. It has caused a lot of suffering for a lot of people and a hardship on a great number of families. Within a life time it will strike 1 in every 4 Americans. One of the greatest things we have so far in the fight of this disease is Cobalt therapy. The closest Cobalt Center to our area is Charlottesville. This is a very long ride for anyone to have to take 20 or 25 days straight. They are going to need many to purchase the equiptment in a Lynchburg hospital. A group of Appomattox citizens are going to sponsor some money raising projects. Plans are being made now. There will be a notice in next week's paper stating what these projects will be and where. Please come out and help. We need your support.

Speech & Hearing Clinic Big Success

More than 50% of those tested were found to have defects and all were cancelled and referred to their doctor or to the hearing center.
